[INTEGRITY]

the quality of being honest and having strong moral principles

Integrity Saw and Tool's state of the art manufacturing facility is located in Fond du Lac, WI.

Integrity is committed to continuously improving the technology at every step of the manufacturing process to provide consistent high quality cutting tools quickly and efficiently. One piece of technology Integrity has invested in is to have a coating facility in house. This allows Integrity to monitor the consistency of the coating and the ability to quickly service our customer's coating needs.

LOCAL

- Proudly made locally in Fond du lac, WI with sales routes spanning northeastern, central and southern Wisconsin.

CONTINUOUS IMPROVEMENT

- Integrity is focused on continuously improving every step of the manufacturing process by investing in inspection equipment, grinding machines, automation, along with an in house PVD coating facility.

DIVERSE

- Integrity is your one stop shop including high performance end mills, custom tools, carbide and HSS drills, saw blades, PVD coating, etc.
- Integrity also provides sharpening to bring your tooling back to "like new" condition.
